Dear Future Employer,

I am writing in interest for your position in the technological industry. Upon some preliminary research I was very impressed with the accomplishments and business model of your company and thus decided to apply to join the team. Hopefully upon reviewing my resume the viewpoint is mutual.

As is shown in my resume, I have plenty of experience as a intern in a private family counseling office. I have done a variety of tasks including file sorting, telecommunications, and workflow optimization, which I understand are useful skills in any internship setting. Alongside experience, I posses hard skills in a variety of computing tools such as Excel, PowerPoint, Word, MATLAB, and SPSS.

I would love to start gaining experience in finance/technology or a closely related discipline while exploring all that the financial industry has to offer. I am very eager to put my full effort into any assignment and promise the utmost dedication in all situations. You can contact me by phone at (760) 623-9235 or email me at nflome@gmail.com

Sincerely,

Nazar Flome
